For work ships like the GCV shown earlier, excellent control response and even thrust distribution is more important than speed. For interceptors and blockade runners, speed and agility means everything. Freighters, meanwhile, need enough power to get them moving in a straight line - turning is optional.

The subtle nuances and quirks of an acoustic piano are terribly difficult to recreate. VRM steps in to save the day, turning the dull and digital sound into a lively, organic experience. A grand piano makes sound by hammers hitting strings. What makes them ring out so beautifully is the huge body of the piano.
