Dasun Eranthika - Colombo District, Western, Sri Lanka ...

Performance Testing is a software testing process used for testing the speed, response time, stability, reliability, scalability and resource usage of a software application under particular workload. The main purpose of performance testing is to identify and eliminate the performance bottlenecks in the software application.

What is the Importance and Benefits of The Project Charter?

Constant communication within the Chapter members is encouraged. Each Chapter meets regularly to discuss their achievements and challenges in their respective areas of expertise e.g QA Chapter, UX Chapter, DB Chapter. There is a Chapter Lead who can guide the various members of the Chapter on "How" things can best be done.

Internet Explorer Driver Server - TOOLSQA

4) It will take few seconds to start, hold on till then ? 5) Once done, you would see the PostMan application registration page . As mentioned above, we will ignore registration as of now but not to avoid, Registration has its own benefits, as it always stores your data and which can be accessible from different machines and location .
