1. Legionaire scutum. The most famous of the Roman shields, great scuta were large and either rectangular or oval. Early oval scuta evolved into the rectangular, semi-cylindrical versions, which were used by the foot soldiers of the early Empire to great effect. Their concave nature offered substantial protection, but made the use of weapons somewhat difficult as it restricted arm movement.

The armor of the Roman army around 160 BC was mainly comprised of a shield, the scutum, and body armor that varied depending on rank and position, consisting of a breastplate and one greave, on the left leg. The scutum was a curved oval shield made from two sheets of wood glued together and covered with canvas and leather, usually with a spindle shaped boss along the vertical length of the shield.
